

Domestic Manual Reel Systems

for Bubble and Foam Covers

Aquamats reels are manufactured in our West Yorkshire factory. Aquamat has over 45 years experience in manufacturing swimming pool covers and reel systems.

Slide n Lock Reel System

Slide n Lock

The Slide n Lock range features fixed, mobile, wall mounted and wall plate models. The rolling tubes have a slide adjustment mechanism to adjust to the width of the pool.

Slide n Lock reels can handle bubble covers up to 20ft x 48ft overall and foam covers up to 20ft x 40ft.

Universal Reel

Commander Reel

Universal Reel

The Universal range features all the same options as the Slide n Lock but has welded ends in place of clamps. Also available is the Universal one piece tube that can handle covers up to 22ft x 45ft overall.

Commander Reel

The Commander reel is similar to the Slide n Lock but only has one winding wheel with hand knob that can be fitted either end for easy use.

The Commander can handle bubble covers up to 17ft x 40ft and foam covers up to 17ft x 34ft.

Wheelie Reel

Gerkha Reel

Wheelie Reel

The Wheelie reel is designed for a roller that needs to be moved a long way from its operational position. One end stand has a steering wheel and the other a tough pair of wheels. The Wheelie can handle 400Mu bubble covers up to 18ft x 36ft.

Gerkha Reel

The Gerkha reel is for smaller bubble covers 9ft – 11ft wide or 12ft-15ft wide, suitable for above ground or in ground pools.
